Marasy PHI
iOS Software Engineer

ABOUT ME

I love building amazing products.

I can develop amazing mobile products using Native iOS, Android. My preferred badge would be iOS because I fell in love with Swift Language as well as SwiftUI.

Furthermore, I am also be able to work amazing Hybrid Platform such as Hybrid Flutter, R/N and KMM. I used to work on those multiple projects.

I considered myself as having strong leadership and very flexible, currently I am leading the team to deliver the amazing product called Wonderpass.
